Patel Mitenkumar Mukeshbhai

Full stack developer

📅 2001/10/12 ✉️ mitenpate1234@gmail.com 🔗 LinkeIn ○ Github 📞 9510039054

PROFESSIONAL EXPERIENCE

2 year   Ahmedabad, India
MERN Stack Developer
With two years of experience as a Full Stack Developer, I have built and optimized web applications, ensuring smooth functionality and scalability. I have worked on both frontend and backend, focusing on user experience, security, and performance. Through collaboration and continuous learning, I have contributed to delivering high-quality projects efficiently.

EDUCATION

12th   Navsari, India
J.J Maheta High School

Bachelor of Engineering   Bhavnagar, India
Shantilal Shah Engineering College ⧉
8.51 CGPA

SKILLS

Html │ Css │ Javascript │ Typescript │ React Js │ Next Js │ Node js │ Express Js │ Mongodb │ Strapi │ Shell Script/Powershell Script │ GraphQL │ Git/GitHub │ Taiwind Css │ Aceternity UI/Shadcn UI /Material UI │ Nest js │ Jira

PROJECTS

Blog app
crud operations
My project blog app that includes CRUD operations and a user-friendly sign-in/sign-up process. It leverages the MERN stack, allowing users to seamlessly create, read, update, and delete blog posts with image . The React.js frontend facilitates an intuitive sign-up process, securely storing user data in MongoDB through the Node.js backend. The app ensures a smooth user experience, combining robust authentication with versatile content management.
Apple SSO ⧉
Using Next js and nextauth .
My Next.js app incorporates Single Sign-On (SSO) with Apple ID using NextAuth. Users can effortlessly log in with their Apple ID, enhancing the authentication process. Additionally, the project includes a streamlined guide for configuring the app within the Apple Developer account, ensuring a seamless and secure login experience for users.

Dockerization Your Base Project
I've crafted a script for Dockerizing your base project, ensuring compatibility across Windows, macOS, and Linux. By executing the script, Docker will be seamlessly implemented in your base project, following the specified configuration effortlessly with a simple user input.
Personal Portfolio Website using Next.js and TypeScript
Developed a responsive personal portfolio website using Next.js and TypeScript, showcasing skills, projects, and experience. The site is hosted on Vercel for optimized performance and seamless deployment. View the website here ⧉ .

Liquidox
Contributed to the development of Liquidox, a blockchain-powered investment platform designed for secure asset management and optimized financial services. Explore Liquidox here ⧉

SupplyHive
Contributed to the development of SupplyHive, a powerful platform designed for reviewing, rating, and scoring supplier performance with a focus on efficient collaboration between managers and suppliers.Learn more about SupplyHive here ⧉ .
